

## BY SATURDAY EVENING'S MAIL.

**ESCAPE OF WALTER S. LAND.**—The Court of Princess Anne having decided that their own jail was an unsafe depository for the prisoner Walter S. Land, (charged with a most atrocious murder), ordered his removal to the jail of this city for safe keeping. Accordingly, on yesterday morning, the Deputy Sheriff, Mr. Henry Lewis, having secured the prisoner in irons procured a Rockaway to which he consigned him in the custody of Mr. Willoughby Williams (of Kennebec), an elderly man of 55 or 60 years of age, while he, Lewis, followed behind in a gig. They had not proceeded more than four miles, however, before Land suddenly and by a most extraordinary exertion of strength for a man in irons threw himself from the carriage and fell headlong upon the road, but immediately sprang to his feet and dashed into the woods. Mr. Lewis having caught sight of him as he rose from the ground, immediately alighted and gave chase. Twice he essayed to fire his revolver at Land, but both times the cap exploded, and the fugitive succeeded in making his escape in the dense and tangled forest.

These we believe are all the facts of the case. Our readers must make their own comments on them. But the most charitable construction that the case will admit, cannot exonerate the parties in charge of the prisoner from the strongest censure for their negligence—the arrangement for his conveyance being just such as he himself would probably have suggested.

The Deputy Sheriff has issued a handbill offering a reward of \$100 for the apprehension of his runaway prisoner.—*Norfolk Herald.*

**UNIVERSITY OF VIRGINIA.**—The Board of Visitors of the University at their recent meeting, passed a resolution authorizing private individuals to erect dormitory buildings upon the University grounds under certain restrictions. The location and architectural style of these dormitories and their management are to be under the control of the Board; and the Board reserves the right to take them at any time at their fair value. The cost and profits are to go to the owners of the buildings.

The salaries of the professors were increased, or rather, the present limitation upon the professors' receipts from their classes was extended so as to yield larger salaries, provided the classes continue as large as at present.

The prospect of a location of a theological seminary in the vicinity of the University brought up the long established regulation of the University under which students of divinity were admitted to the lecture rooms, free of charge for professors' fees. The question was discussed at length but was postponed without any change being made in the present established rule.

The Board fixed upon the 4th of July as the day upon which the session shall terminate. The commencement of collegiate exercises will, as heretofore, take place on the 1st of October. —*Charlottesville Advocate.*

**CULPEPPER CO., VA.** We examined, the other day, a large iron mill wheel, some 20 or 25 feet in circumference, cast for Dr. Taliaferro, of this place, by Mr. T. S. Janieson, of Alexandria, and do not hesitate to pronounce it a perfect piece of machinery.

Large as it was, it rang, on being struck, as clear as a Mexican dollar, throughout. The iron seemed to be the best quality. The casting would credit to any Foundry in the United States. The spindles which accompanied the wheel were also, very superior.

We have had several days of very cold weather, for the season. Fires and shawls have been in re-use. On Monday and Tuesday morning there was sufficient frost to freeze the corn blades.

The house and lot opposite the Virginia Hotel, belonging to Mrs. F. Thompson has been purchased by Henry Shackelford, esq., at \$4,000, cash.—*Blue Ridge Republican.*

**FEDERAL COURT.** A special term of the Federal Court for the Western District, Judge Brockenbrough presiding, commenced in this place on Wednesday last. This term of the Court, we learn, will be taken up entirely in the trial of a number of ejectment cases known as the "Jarvis cases" involving titles to 45,000 acres of land in Highland County. The cases number about 20, and unless something new unexpected, should out the trials short, we have no doubt, but that his Honor will be here until sometime in August.—*Staunton Vindicator.*

**SLOW COACHES.** Folks who bet on the recent State elections are very wrathful against the unparadiseable backwardness of that Pamphlete county called Brooke, and that far western county, called Boone, in their failing to come forward and show their official figures. In respect to the "smartness" of the Old Dominion these two counties should be voted out, or else annexed to a fast team.—*Richmond Enquirer.*

**THE SOUTHERN LITERARY MESSENGER.** For July has been received. It is a capital number. The articles are as follows:—Sir William Hamilton's Philosophy—To my Alma Mater—Mental Traits of the Aborigines—Socrates and the Philosophy—Domestic Life in France—Greenway Court; or the Bloody Ground—Francesca Di Ravenna—The Poetic Art of Novelty—Early Letters of Arthur Lee—Editor's Table—Notices of New Works.

**"A DEMONSTRATION."**—The Richmond Enquirer charges and maintains that it has demonstrated, "that the Richmond Examiner and its partisans are at this moment doing more real effective injury to the institution of slavery, than are the combined efforts of Eli Thayer-Squatter Sovereignty-Black Republicans, and their brethren of the Garrison stamp."

Mrs. Geo. A. Bradley, near Marksville, has presented her husband with four little responsibilities, within eleven months, having produced twins in July, 1858, and also in 1859. The former died, one at four and the other at six weeks after birth; the latter are both doing well. Page is a flourishing county! —*Valley Democrat.*

The Annual Commencement at William & Mary College, took place on the 4th of July. The Valedictory Address was delivered by Walter Weir of Prince William County. It is spoken of in the highest terms, as a chaste and beautiful composition. The oration before the Literary Societies was delivered by Roger A. Pryor, and it is said to have been most favorably received.

**REVOLVING HAY RAKES AND WHEAT OULANERS.**—There is a great saving in the use of these articles. For sale by

GRAYSON & CO. MEADE, No. 12 Fairfax-st.

## LOCAL ITEMS.

**BODY FOUND.**—On Saturday afternoon last, the body of young Childs (who was accidentally drowned the day before, from off the steamer George Page), was found near the place where he fell overboard. The body was brought to this place, to be conveyed to his father's residence in Loudoun county. His father, upon receiving intelligence of the sad accident, hastened here, and received the remains of his child.

**MOUNT VERNON.**—The House and Tomb of Washington will soon pass into the possession of the Ladies' Mount Vernon Association. Various repairs of the premises, will be commenced today, under the superintendence of Col. Charles S. Price, of the place. The carpenter's tools imported from England, by General Washington, during his time, have been preserved, and will, in all probability be shown now in making the contemplated repairs.

**CHESAPEAKE AND OHIO CANAL.**—The Georgetown correspondent of the Washington Star says:—Business upon the Canal since the repair of the break, has been unprecedentedly brisk. 120 boats have arrived, 120 of them from Cumberland, bringing 14,000 tons of coal; one with Railroad iron, and the remainder from various points with Tait, bark, &c. The revenue collected as yet, at the only Station Collector's office, amounts to only \$1,250 as follows: Ascending made \$130, and descending \$1,120.

**THE HARTFORD FIRE INSURANCE COMPANY.**—In another column we publish the ninety-eighth semi-annual statement of this reliable Company. The old Hartford, as it is familiarly called, is without any question a model Insurance Institution, in every point of view. It will be noticed by running the eye over the abstract statement, that the assets amount to \$874,313.35 and that of this large amount nearly the whole would be at any time available. The cash in hand amounts to \$79,969.42. We scarcely need add that the affairs of this Company are managed with alacrity and prudence. Mr. Andrew Jamieson is the Agent in this city.

**FIRE IN WASHINGTON.**—The large feed establishment of Alfred Jones, near the Circle, in the First Ward, and a great quantity of material, was destroyed by fire on Friday night. The fire was supposed to be accidental. The horses were saved.

**THE NATIONAL TEACHER'S ASSOCIATION** will assemble in Washington, on the 10th of August next. The lecture-room of the Smithsonian Institution has been secured, and during its session, beside the ordinary business of the convention, a number of interesting lectures will be delivered.

**MARRIED.** At Chatham, the residence of the bride's father, on the 26th of June, by the Rev. John Beckwith, of Maryland, Dr. SAMUEL E. COOPER, of Lexington, to Miss MARGARET BROCKENBROUGH, daughter of John F. Brockenbrough, esq., of Westmoreland co., Va.

**DIED.** In Washington, on the 7th inst., MARY DE MENT, wife of the late Walter De ment, of St. Mary's county, Maryland, aged 83 years.

**WESTLEYAN FEMALE INSTITUTE, STANTON, VA.**—The catalogue of this Institution is before us. The Institute is under the able and energetic management of Rev. B. Arbores, A. M., with able assistants. The number of pupils the past year nearly double the year preceding, indicating a desirable prosperity.

A new Piano, and about one hundred dollars worth of Chemical and Philosophical apparatus will be added during the year. Staunton is located near the centre of the State, and accessible from all sections by Railroad and other easy modes of travel—its air is bracing and healthy—its environs beautiful.

This is the only Female Institution, which is properly under the direction of the Baltimore Conference, that body has been laboring, though under many disadvantages, to make it in all respects, what it should be; many obstacles have been overcome, and the future is brighter than ever before.

The benefits of this Institute have not been confined to any one denomination, but the Protestants of that section, have more or less shared its advantages. The building is a beautiful one, and well adapted to the purposes of a Boarding School, and with the increasing facilities for instruction about it made, it must command the extensive and liberal patronage it so justly merits.

**EXERCISES OF THE CULPEPPER FEMALE INSTITUTE.**—The closing exercises of this flourishing Institution closed on Thursday evening last. It was not in our power to attend the examination which had previously taken place, but learn that it was close, elaborate, and critical, and that the result was creditable alike to pupils and teachers, and highly gratifying to its patrons and friends.

A very natural consequence of the thorough discipline, and matured system of the school, taken together with the high qualifications of the teachers.

The closing exercises consisted of music alone. The rooms, and all the avenues leading to them, were crowded with ladies and gentlemen, many of them from a distance. The main room was handsomely ornamented with beautiful paintings, the work of the scholars, and festooned with evergreens. It would be improper to discriminate where all did so well. The performance on the piano, and the singing, in some instances, would have done credit to those of much more experience and practice, and gave evidence of thorough teaching and training.

We had the pleasure, also, of reading the compositions of the young ladies who received the distinctions, and are pleased to be able to bear testimony to their decided merit. —*Blue Ridge Rep.*

**WISE & CO.,** On King, between Water and Union streets, ALEXANDRIA, VA.

**COAL! COAL! COAL!!** We shall soon be delivering COALS from vessels, of superior quality, at the following prices for family use. Please send us your orders, that you may save expense of carting, yarding, &c., a consideration to the consumer, as to cost—WHITE ASH, and RED ASH, suitable for stoves, grates, furnaces, and Baker's use, now on hand, and to arrive. CUMBERLAND, in any quantity; Lump, Run of Mine, and Smith's COAL, all under cover, on plank flooring, and not exposed to the weather. —*Blue Ridge Rep.*

**PLASTER.**—250 tons BLUE WINDSOR PLASTER, for sale to arrive, by WM. H. FOWLE & SON, No. 4, South Wharves.

**NEW GOODS.** I HAVE just received a lot of SUN UMBRELLAS, for Ladies

GENTS GAUZE MEXICO SHIRTS

Hoop Skirts

Superior bleached Long Cloths, for Shirting

Irish Linens, &c. JAMES M. STEWART, No. 11—Exchange Block.

**WANTED TO HIRE,** for the remainder of the year, a SERVANT BOY, who is honest, and can do house work. Apply at this Office. —*Blue Ridge Rep.*

**PLASTER.**—250 tons BLUE WINDSOR PLASTER, for sale to arrive, by WM. H. FOWLE & SON, No. 4, South Wharves.

## THE NEWS FROM EUROPE.

## ARRIVAL OF THE STEAMER HUNGARIAN.

## The Great Battle on the Mincio.

FARHER POINT, July 8.—The steamship Hungarian left Liverpool at 9 a.m. on the 26th, and passed this point at 11.30 a.m. today, en route for Quebec, where she will be due at a late hour this evening.

The following is the order of the day published by the Emperor Napoleon, after the battle of Salferino:

"CARRIAGE, June 25.—The enemy who believed themselves able to repulse us from the Chiese, have recrossed the Mincio. You have worthily defended the honor of France.

Salferino surpassed the resolution of Lodi and Castiglione. In twelve hours you have repulsed the efforts of 150,000 men. Your enthusiasm did not rest there; the numerous artillery of the enemy occupied formidable positions for over three leagues, which you carried. Your country thanks you for your courage and perseverance, and laments the fallen. We have taken three flags, thirty cannons, and 6,000 prisoners. The Sardegnian army fought with the same courage against superior forces, and worthy is that army to march beside you. Blood has not been shed in vain for the glory of France, and the happiness of the people."

The following is the Austrian official order of the battle:

"VERONA, June 25.—The day before yesterday our right wing occupied Pozzoldo, Salferino, and Carriana, and the left wing pressed forward as far as Gualdiz and Caschellido, but were driven back by the enemy. A collision took place between the entire Austrian army and the French army. Our left, under Gen. Wimpfen, advanced as far as Chiese. In the afternoon there was a concentrated assault on the heroically defended town of Salferino. Our right wing repulsed the Piedmontese, but on the other hand the order of our centre could not be restored, and our losses are extraordinarily heavy. The development of powerful masses of the enemy against our left wing, and the advance of his main body against Volta, caused our retreat, which began late in the evening."

VIENNA, June 25.—Austrian correspondence contains the following:—The day before yesterday the Austrian army crossed the Mincio at four points, and yesterday came upon the superior forces of the enemy on the Chiese. After an obstinate combat of twelve hours, our army withdrew across the Mincio. Our headquarters are now at Villa Franca.

The London Times says the Austrians have most candidly admitted their defeat, and that history scarcely records a bulletin in which such a disaster is more explicitly avowed.

The Montreurs say that the battle will take the name of the battle of Salferino.

Patriotic demonstrations by the working classes in Paris were universal. Large reinforcements for the French army were constantly quitting France for Italy, the volunteers, the chasseurs, and five small vessels, one large frigate, and three steamers, in the port of Marseilles, to prevent the passage of the French squadron.

Princess Eugene of Savoy had issued a decree extending the forced currency of the National Bank.

PARIS, Tuesday. Generals Anger, Forey, Dyon, and L'Amiral were wounded slightly at Salferino.

There will be a Te Deum next Sunday in all the churches of France, in celebration of the victory. The Emperor and all the ladies of State attend at Notre Dame.

PARIS, Tuesday. An official bulletin to the 24th. The Piedmontese were principally engaged at San Martino, performed prodigies of valor, and took formidable positions, but could not hold them, owing to a fearful tempest. The Piedmontese drove the Austrians from San Martino, retaining five of their cannon. Serious losses are admitted.

An English fleet of twenty sail is said to be cruising off Venice. Great naval preparations are said to be going on at Chieri. The Monitor of this morning contains the following:—

CARRIAGE, June 28.—Our troops have passed the Mincio without hesitation, the enemy having withdrawn therefrom.

The advices from Frankfurt on the Main, state that on the 26th of June, Prussia made a proposal to the Federal Diet to place a corps of observation on the Rhine, to be composed of the 7th and 8th federal corps d'armee under the superior orders of Bavaria. The proposal was referred to the military committee.

GREAT BRITAIN.—It is stated that in consequence of a few reinforcements having been sent to India for several months past, the authorities had determined on sending out nearly 5,000 cavalry and infantry troops.

The Prince of Wales has returned to England.

The Atlantic Telegraph Company had issued their prospectus, inviting subscriptions to the new capital of £800,000 on the terms already made public. The directors pledge themselves to enter into no contract without seeking the advice of the highest scientific and practical authorities of England and America. The first operations are to endeavor to raise the old cable.

A deputation from Canada had waited upon Queen Victoria, to invite her to be present at the opening of the Great Victoria Bridge next year.

The elections for members of Parliament to fill the seats vacated by those who have accepted office in the new Ministry were generally resulting in the return of the Government candidates. Mr. Gladstone, however, was being closely pressed for Oxford University by Marquis Clarendon.

The submarine Telegraph Company have successfully laid a new cable, containing six conducting wires, between Folkestone and Boulogne. It is the largest and strongest cable ever made, the weight being ten tons per mile.

LONDON, Wednesday.—The Earls of Derby and Harrowby were yesterday invested with the Order of the Garter.

It is stated that Mr. Loyer is at Vienna, trying to negotiate with Austria for the sale of the eight steamers lately belonging to the Prussian and American Steam Company. Unsuccessful overtures have been made to France.

The Daily News city article says that the funds were weaker on Tuesday, owing to the renewed fall in the French Rentes, which are prejudiced by rumors in relation to the cost of the late victory, as well as by the creation of stock arising from the new loan. Consols closed 1/2 lower than on the preceding day.

FRANCE.—The news of the victory on the 25th, imparted much buoyancy to the Paris Bourse, and the Rentes advanced nearly 1/2 per cent. On the 27th, there was a relapse, three-fourths of the advance being lost. On the 28th, the market opened with a still further decline, but rallied, closing steady at 62.30.

Trade in Paris was tolerably dull. The Corn market was dull on account of the favorable harvest prospects.

PAPAL STATES.—A dispatch from Rome

announces that Ferrara, Ravenna, Forli, Ancona, and other towns, have been replaced under the authority of their Pope by intervention of the Pontifical troops.

The officer who commanded the Swiss troops in the affair at Perugia, is said to have been promoted.

AUSTRIA.—The Vienna correspondent of the London Times asserts that for the last ten years matters have been so terribly mismanaged in Austria, that they will be almost miraculous if the empire escapes dissolution.

In an autograph letter, the Emperor Francis Joseph has caused ordinances relative to Protestants in Austria to be issued without waiting for the revision of the Council of State.

NAPLES, June 26.—By a decree just issued one hundred and thirty-seven refugees are permitted to return, and all other Sicilians holding permission and promising obedience to the laws.

Latest from Cuba.

NEW YORK, July 9.—The steamship Kanak, from Bermuda, brings dates from Havana to the 3d. Sugar had advanced 1/2 rial. Molasses and freights unchanged. Exchanges were tending downward. There was no fever of consequence in the island.

## COMMERCIAL.

## Domestic Market, July 9.

Potatoes, new, 25¢ @ 30¢, 1/2 peck. Tomatoes, 62¢ @ 70¢, 1/2 peck. Peas, 16¢ @ 20¢, 1/2 peck. Beans, 12¢ @ 15¢, 1/2 peck. Chickens, 20¢ @ 25¢, 1/2 dozen. Cylinders, 12¢ @ 15¢, 1/2 dozen. Cabbage, 20¢ @ 25¢, 1/2 head. Beets, 10¢ @ 15¢, 1/2 bunch. Onions, 10¢ @ 15¢, 1/2 bunch. Blackberries, 10¢ @ 15¢, 1/2 quart. Raspberries, 10¢ @ 15¢, 1/2 quart. Eggs, 16¢ @ 18¢, 1/2 dozen. Apples, 20¢ @ 25¢, 1/2 peck. Chickens, \$1.50 @ \$2.00, 1/2 dozen. Beef, 10¢ @ 15¢, 1/2 lb. Veal, 10¢ @ 15¢, 1/2 lb.

The Markets.

RAILROAD, July 9.—Flour closed dull, but unchanged. Wheat has declined 1/2¢, white 120 1/2¢, red 120 1/2¢ @ 130¢. Corn unchanged. Provisions are unchanged. Whiskey closed dull at 25¢.

NEW YORK, July 9.—Flour has declined 1/2¢, 25¢, 30¢ @ 35¢ @ 40¢; Ohio 30¢ @ 35¢, Southern 30¢ @ 35¢. Wheat closed with a declining tendency; Southern white 17 1/2¢ @ 18¢, red closed higher, but scarce; mixed and yellow 90¢; round white 85¢. Pork closed steady; mess 116¢ @ 120¢. Lard closed heavy at 10 1/2¢ @ 11¢. Whiskey closed firm, and is held at 27 1/2¢ @ 28¢. Stocks are dull and unchanged. Va. 6 1/2¢ @ 7¢, Mo. 6 1/2¢ @ 7¢.

The Bremen, for Europe last Saturday, was expected to take out about \$500,000 in specie, making the total for the past eight days about \$1,100,000. The London Economist says:—"The influx of gold from the United States, though greatly assisted by the heretofore invested in 'Gold' further supplies from Russia. The Russian Government has numerous dividends and other claims to discharge in London about this period. The payments for iron and machinery for the Russian navy also help to explain the high level of the exchange, and the consequent steady flow of specie to this side."

First Sale of Wheat.—J. L. Mayer, esq., sold his crop of prime white wheat to be delivered immediately, at Mr. M. Slaughter's Eagle Mill, for \$1.50 per bushel.—*Frederick News.*

The first new Wheat was brought to town to-day, by Capt. William Browne, and stored.—*Frederick News.*

Flour Inspections.—For the quarter ending the 1st of July, there were inspected in Frederick, 1,067 barrels of flour; in Petersburg, 4,781 bbls.; in Alexandria, 14,422.

HIDS ST. CROIX SUGARS 73 bbls. Yellow 20 20 B. Coffee 30 30 Crushed and Granulated Sugar 10 10 Muscovado 10 10 Sugar House Syrup 15 15 New Orleans Molasses 10 10

30 lbs. low grade Tobacco, (round & bright) 20 20 superior Tobacco, just received, and for sale by J. H. McVIGHE & SON, No. 61 South Union-st.

FOR PHILADELPHIA, NEW YORK, AND BOSTON.—HANS' LAY, (German Consul),—T. J. McHardy, will leave Long Wharf, (foot of Duke street), on Tuesday, the 12th inst., at 6 o'clock, P. M. For freight, which will be taken at the lowest rates, apply to T. J. McHARDY, No. 61 South Union-st.

P. S. No. Coal carried by this Line, July 11—21.

NEW BOOKS.—Gray's Anatomy.—Anatomy, Descriptive and Surgical, by Henry Gray, M.D., Lecturer on Anatomy at St. George's Hospital, the Dissections jointly by the author and Dr. Carter, with 363 engravings on wood, a large royal octavo volume, price 10s. The French Republic, by John S. C. Abbott, with one hundred engravings, \$2.50. Just published, for sale by ROBERT BELL, No. 11—Exchange Block.

PATENT GLOBE COFFEE ROASTER, for Stoves and Fire Places, they are the best and cheapest in use. Call and see them at J. H. GREGORY'S, 115 and 120 King-st.

## PIONEER MILLS FOR SALE!

WE are authorized by the proprietors to offer for sale the Pioneer Mills, situated on the Potomac River, near the mouth of the river, and within a few miles of the city of Washington.

The MILL BUILDING is the first built on the Potomac, with stone foundation, and is situated directly on the River front, and within a few yards of the Orange & Alexandria and Manassas Gap Railroad, with wharves, and depots of water, suitable to accommodate the trade of the largest cities. Its dimensions are 172 feet in length, by 80 feet in width, four and a half stories high, and is covered with slate.

A GRAIN ELEVATOR is also attached, by which grain can be rapidly discharged from vessels immediately into the Mill. The GRAIN BINS are capable of holding 70,000 bushels of Wheat. The Elevator is worked by a small engine, separate from that used in manufacturing, so that grain can be received while the Mill is not in operation.

There are TWELVE PAIRS OF STONES, of 44 feet diameter, capable of manufacturing, when in full work, about 500 barrels of Flour per week. The ENGINES and BOILERS are very superior, made by the T. & L. of Boston, Mass., with 100 horse power. There are six Boilers, with return flues. The Engines are high pressure, and of 200 horse power.

WATER AND GAS have been introduced throughout the entire establishment, and establish, &c., at a small cost, the water can be used for any purpose.

The above is only a general description of this extensive Flouring Mill. Persons desirous of purchasing, will, of course, visit the establishment, where every information will be afforded. The Mill is in a new, and of the most approved description, it having been the design of the proprietors to erect a Mill second to none in this section of the country. It will be found equally applicable to first-class Flouring Mills.

A COOPER'S SHOP, of brick, covered with slate, and with iron window shutters, adjoins the Mill. Its dimensions are 100 feet in length, by 32 feet in width, two stories high. It is perfectly proof, and has in it a full complement of Tools, &c., in all perfect order. There are now about 7,000 FLOUR BARRELS on hand, which will be sold with the Mill. Also, a lot of Cooper's stuff, STAVES, HEADS, &c.

It is rarely that such an establishment, so extensive and complete in all its appointments, is offered to the public. The terms of the sale will be made easy.

For further information, apply to J. S. FOWLE & CO., GROVER & BAKER'S CELEBRATED FAMILY SEWING MACHINES.

THE GROVER & BAKER SEWING MACHINE COMPANY have greatly increased their facilities for manufacturing their celebrated Family Sewing Machines. Their machines are the best in use for Family sewing. It is a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and at less cost, than it can possibly be done by hand.

Send for a circular. For sale at J. S. FOWLE & CO., No. 7, South Fairfax street.

STEAM TUG AND CANAL BOATS FOR SALE. We have FOR SALE an excellent TEAM TUG, three years old, 30 feet in length, 7 feet hold, 12 horse power, and 12 horse power. Her Engines and Boilers are in first rate order. She is capable of carrying 6,000 bush. of Grain under draft, drawing 6 feet of water.

Also, we have
